Count on Us®

ROCKFORD
CONSTRUCTION

**CITY OF
GRAND
RAPIDS**

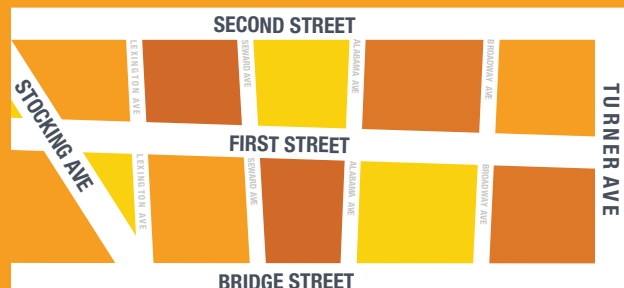

CONSUMERS ENERGY is bringing the best in energy technology to Circuit West, a cutting-edge district in the heart of Grand Rapids.

Consumers Energy is an established solar innovator in Michigan with our community solar program, Solar Gardens. Integrating solar power at Circuit West aligns with our company's goal to increase the amount of available renewable energy.

Circuit West is being developed to include over 500 kW of solar energy generation, including:

- 400 kW on top of the Circuit West parking deck
- 80 kW at the Bridge Street Market
- 48 kW on the First Street Office Building

We Have Solar Energy Options to Fit Your Needs

- On-site and off-site solar installations to fit your needs - We have solutions for you.
- Utility scale battery storage to capture solar energy and use when you want.

Why Invest in Sustainable Technology?

Your Customers Care¹

- **45 percent** of customers say “commitment to the environment” influences their purchase decision.
- **55 percent** of customers are willing to pay more for sustainable goods.
